About Mace Group

Mace Group is one of the world's most accomplished consultancy and project management firms, with a reputation for finding the best solutions to complex service and estate challenges

The Mace Group approach

Our vision is to be the best at everything we do. This statement is no more relevant than within the health and social care sector and we aim to improve quality, equity and efficiency for our clients. Mace is proud to support the NHS and we constantly strive to be at the heart of public sector best practice and reform.

Mace was born out of a determination to be different and the company is renowned for its culture of collaboration, innovation and going the extra mile.

mace

Parent company Mace is a global consultancy and project management company that provides services spanning the entire property lifecycle

sense

Improving health, improving care, improving lives

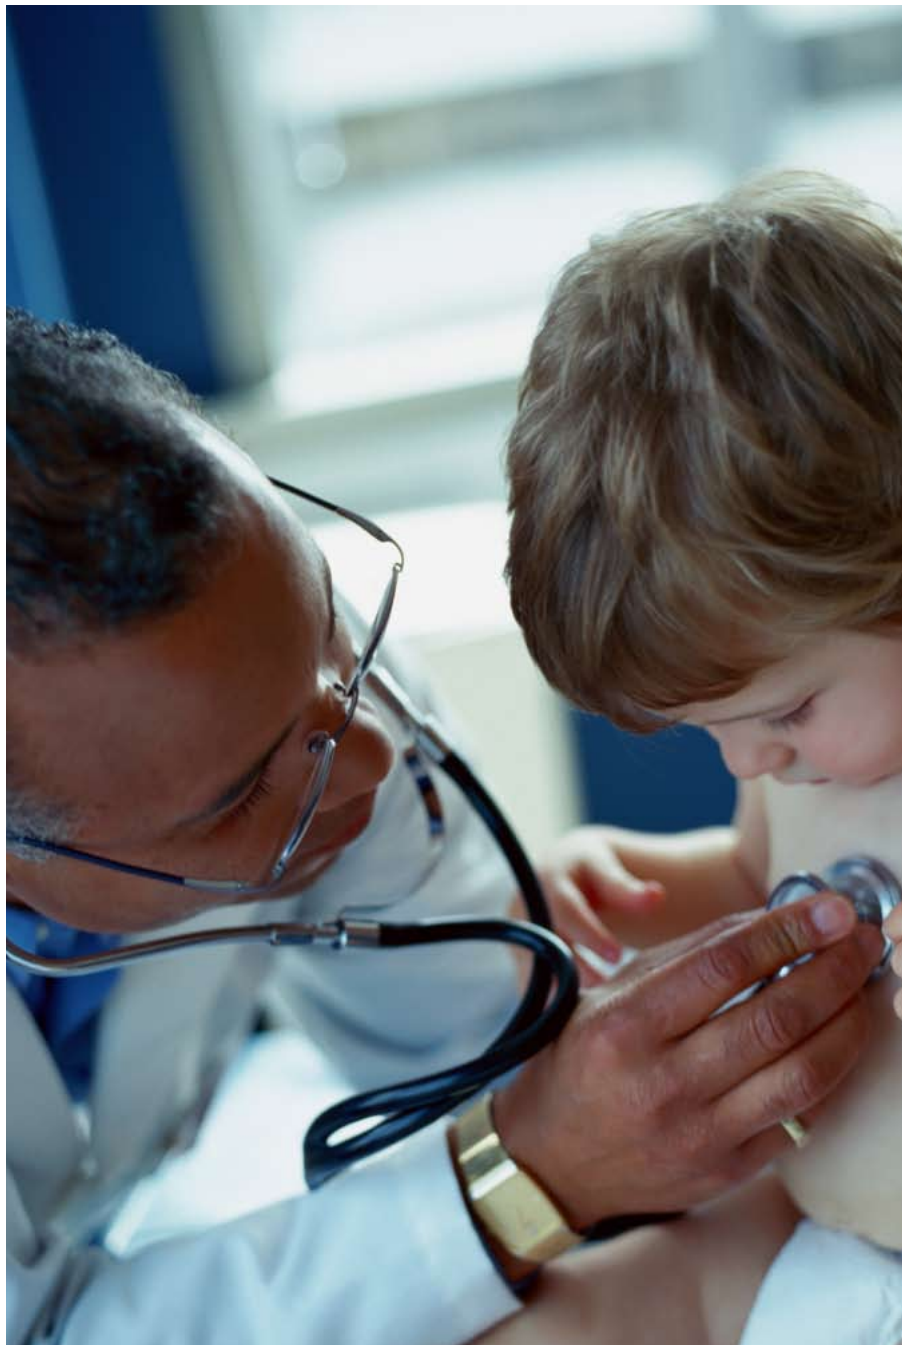

Mace Group is not simply a construction management company – we also provide strategic support to the NHS and other health and social care organisations. We offer a full suite of services, ranging from bespoke consultancy to full project management.

With a focus on service development and improving health outcomes, we endeavour to improve quality; ensure value for money and provide deliverable solutions that meet our client's requirements.

High quality care for all: NHS Next Stage Review

Mace understands that the Darzi reforms are a 'once in a generation' opportunity to review and reform the National Health Service. We are working with NHS organisations to improve the quality of healthcare for all, support staff development and maintain ongoing efficiency savings. It is this ethos that our consultants bring to every project, whether within the public or private sector.

We know that our clients require practical, down to earth advice and unlike other consultancy firms, this is what we deliver. Whatever your project requirements, Mace Group can be trusted to deliver your vision.

working

Prevention is
better than cure

Why Mace?

- Mace provides a full range of services to the health and social care sector, from clinical support, strategic planning and commissioning, through to estate development, procurement, FM and construction management
- Mace provides expert consultancy and advice and unlike other consultancy firms, we focus on delivering practical solutions that fully meet our client's requirements
- Mace support integrated projects and partnerships between the NHS, local authorities and other public, private and voluntary providers of health, education and social care
- Mace provides support to Public Private Partnership (PPP) schemes, including PFI, BSF, LIFT and Express LIFT
- Mace is a strategic partner to the Department of Health, Welsh Assembly Government, private healthcare providers and NHS Trusts & Local Health Boards across the country
- Mace also maintains partnership arrangements with private equity companies, who are seeking opportunities to invest in health and social care schemes, including primary care and GP developments
- Mace offers an integrated team of Project Managers and Consultants, with clinical, public health and public sector management experience
- Mace combines direct NHS and public sector experience with a commitment to value for money, best practice and innovation, which our clients expect from a commercial company
- Mace offers the added value and experience gained from working on some of the most prestigious projects in the UK and across the world
- Mace has been appointed to the Department of Health Consultancy Service Framework and our NHS clients can appoint us directly without going out to tender
- Mace has obtained ISO 9001 certification and all our projects are regularly audited by both internal and external auditors.

Our vision for world class health and social care

A focus on health inequalities and diversity

World class commissioning

Improving the environment for patients, staff and the public

Creating flexibility for the future
